**DETAILED ACTION**

***Status of the Claims***

1. The Office acknowledges receipt of Applicants Response, dated 5 September 2002, paper number 9, and Terminal Disclosure, of the same date, paper number 10.
2. Applicant has cancelled claim 9, and amended claims 1, 4-8, 13, 25, 32, 35 and 20-41. New claim 42 has been added. Claims 1-8 and 10-42 are pending, and are examined in the instant action.
3. All rejections not addressed below have been withdrawn.
4. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

***Claim Rejections - 35 USC § 112-second paragraph***

5. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-8 and 10-42 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 1, the term "green regenerative tissue" is unclear because there is no teaching of how to differentiating "green" tissue from "nongreen" tissue. In plant cell and tissue culture, tissue is produced which is often a yellowish and yellow green color. This is especially true of callus. How does one distinguish yellow from green, when the various colors form a continuum, and not a dichotomy? This issue caused the Office

Art Unit: 1638

to interpret "green regenerative tissue" as "callus tissue" in the 35 USC 102 (b) of the initial Office Action.

Further in claim 1, the specific dim light conditions are given, but it is unclear whether those conditions apply to both "culturing" steps.

Clarification and/or correction are required.

**Remarks**

6. No claims are allowed.

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Georgia L. Helmer whose telephone number is 703-308-7023. The examiner can normally be reached on 8:30 - 5:00.
